Dynamic Regulation of 4D Nucleomes during T cell development

Keji ZHAO

Resource

Rapid recall ability of memory T cells
is encoded in their Epigenome **Science Rep**, 2017

Establishing Chromatin regulatory landscapes
during mouse preimplantation development, **Cell**, 2016

Genome-wide detection of DNasel hypersensitive sites
in single cells and FFPE tissue sample, **Nature**, 2015

Control of cell identity genes occurs in insulated
neighborhoods in mammals chromosomes, **Cell**, 2014

PfSETvs methylation of histone H3K36 represses
virulence genes in *Plasmodium falciparum* **Nature**, 2013

Salle de Conférence de L'IBCG
118 route de Narbonne
