

## 4th Conference on Biocatalysis in the Food and Drink Industries, Toulouse, France

This conference is addressing to food agencies, research institutions and processing industries, as well as researchers who are interested in the latest developments of the use of biocatalysts for the production of high quality and healthier food, feed and drinks

The conference is organized by the Biocatalysis Group of the Laboratory of Biosystems and Process Engineering of the National Institute for Applied Sciences (INSA) of the University of Toulouse, under the joint auspices of the European Section of Applied Biocatalysis (ESAB) of the European Federation of Biotechnology (EFB), and the French National Institute for Agricultural Research (INRA, Division for Science and Process Engineering of Agricultural Products (CEPIA))

### Topics

Innovative processes for industries  
Innovative native and engineered biocatalysts  
Innovative ingredients

### Keynote lecture

Dr. Bernard Henrissat,  
*CNRS, Marseilles, France*

### Closing lecture

Prof. Robert Rastall,  
*The University of Reading, UK*

### Deadlines

2010 01 15: Early registration and Call for abstracts

2010 01 31: Definitive program

2010 03 15: Preferential registration

### Organisation committee

Didier Combes, INSA, University of Toulouse, France  
Pierre Monsan, INSA, University of Toulouse, France  
Gabrielle Potocki-Veronese, INRA, France

### Scientific committee

Didier Combes, INSA, University of Toulouse, France  
Georges Corrieu, INRA, France  
Lutz Fischer, University of Hohenheim, Germany  
Maurice Franssen, University of Wageningen, The Netherlands  
Takashi Kuriki, Ezaki Gliko, Japan  
Pierre Monsan, INSA, University of Toulouse, France  
Marco van den Berg, DSM, The Netherlands  
Sven Pedersen, Novozymes, Denmark  
Antoni Planas, IQS, University Ramon Lull, Spain  
Kaisa Poutanen, VTT and University of Kuopio, Finland  
Gabrielle Potocki-Veronese, INRA, France
